actual webbing colours may vary  
slightly from colours shown

## Wide Webbing (150mm)

150mm Wide Webbing is a highly effective, low-cost method of communicating messages to your customers and employees. It gives plenty of scope for printing your logos, branding, promotions and safety instructions in full colour. Available in a range of standard colours and messages (shown below), or printed in any colour to order.

### 150mm Standard Webbing

## Digital Dye-Printed Webbing

Digital dye-printed webbing is available for a wide range of TensabARRIER® products containing 50mm or 150mm retractable webbing.

Tensator is an expert in designing webbing and offers a design service to prepare customised artwork, ensuring that your design not only complements your environment but enhances your queuing system. Text, graphics, messages & promotions can be applied to your queue management products with your own unique design content.

Tensator's digital dye-printed webbing service offers the following benefits:

- High quality print reproduction
- Durable dye prints, not transfers
- High degree of permanency
- Full colour print options - no cost limitations
- Single or double-sided print options
- Option to upgrade to double-sided prints free of charge
- Graphics can be designed to your specification as part of our customer service
- Rapid turn-around times of 2/3 weeks from artwork sign-off
